

Reel Caption

Short-form video caption sample

CONTENT TYPE

Short-form Reel — content repurposing / social media consistency

CAPTION

Running out of things to post?

You don't always need more ideas — you need to make better use of the ideas you already have.

One service can become an educational post.
One FAQ can become a Reel.
One idea can become a full week of content.

That's what content repurposing is about. ■■

At AI Content Lab, we turn your expertise and services into consistent social-media content without the need for a full marketing team.
